

Finding the Parent Code in Edmodo

STEP 1

Every student using Edmodo has a unique Parent Code. You can find this code at the bottom left of your child's Edmodo homepage. This code is used to create a Parent account, and links the parent to the student. Once your accounts are linked, the Parent account is automatically populated with information from all Groups that the student has joined.

STEP 2

Once you have the Parent Code, go to www.edmodo.com, tap on 'Parents' and log in using the Parent Code along with your own information.

More than one student?

If you have more than one student using Edmodo they should obtain the Parent Code for each student and then 'add a student' once logged in to their existing account.

Hi, Zora H. Student

You can find the parent code on your child's Homepage.

The parent code unique to your child is located at the bottom of the left side panel on your CHILD'S account. Each child will have a different parent code. You will need the parent code to create a Parent Account or to add another child to your account. Note: The parent code is NOT the same as your child's Group code.

Parent Code

Give this code to your parents so they can create an Edmodo account:
