**INNOVATION
CENTRE**

BUILD YOUR OWN VIDEO GAME THAT CHANGES THE WORLD

**Take your gaming skills to the next level by designing
and building your own video game for good**

Explore behind the scenes in the gaming industry by seeing first hand how to come up with an idea for a video game and take it all the way to a prototype that you can share with the world.

You will get to explore how we can use video games to solve problems in the world with industry experts supporting you along the way!

No previous experience is needed and you will build valuable skills for any future career;

**Planning - Problem-Solving
Influencing - Storytelling
Creativity - Communication**
